

THE ALASKA CENTER FOR THE
BLIND AND VISUALLY IMPAIRED

Letter to the Governing Board

Year Ended June 30, 2021

THE ALASKA CENTER FOR THE
BLIND AND VISUALLY IMPAIRED

Letter to the Governing Board

Year Ended June 30, 2021

November 3, 2021

To the Members of the Board
The Alaska Center for the Blind and Visually Impaired
Anchorage, Alaska

We have audited the financial statements of The Alaska Center for the Blind and Visually Impaired (the Center) for the year ended June 30, 2021, and have issued our report thereon dated November 3, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2021. Professional standards also require that we communicate to you the following information related to our audit.

Significant Accounting Policies and Transactions

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Center are described in the Notes to the financial statements. As discussed in the Notes to the financial statements, in 2021 the Organization adopted new accounting guidance, FASB issued Accounting Standards Update (ASU) 2014-09 Revenue with Contracts with Customers (Topic 606). Management has implemented 2014-09 as of June 30, 2021 and have adjusted the presentation in the financial statements accordingly. The ASU has been applied retrospectively to all periods presented for which net assets without donor restricts were unaffected. We noted no transactions entered into by the Center during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Significant Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the useful lives and depreciation expense is based on the estimated life of an asset. We evaluated the key factors and assumptions used to develop the estimated useful lives and depreciation expense in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of functional expenses is based on an allocation of program expenses and general administration. We evaluated the key factors and assumptions used to develop the allocation of expenses in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

The financial statement disclosures are neutral, consistent, and clear.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. We did not identify any misstatements as a result of our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 3, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Center's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Center's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Accounting Assistance

As a part of our engagement we drafted the financial statements of Alaska Center for the Blind and Visually Impaired from the Center's accounting records; however, management of the Center involved in the drafting process and retains responsibility for the basic financial statements.

Supplementary Information

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with U.S. generally accepted accounting principles, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Internal Control Matters

In planning and performing our audit of the financial statements of Alaska Center for the Blind and Visually Impaired as of and for the year ended June 30, 2021, in accordance with auditing standards generally accepted in the United States of America, we considered Alaska Center for the Blind and Visually Impaired's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control. Accordingly, we do not express an opinion on the effectiveness of the Center's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Subsequent Accounting Standard Updates

The Financial Accounting Standards Board (FASB) has passed several new accounting standards updates (ASU) with upcoming implementation dates covering several topics as follows:

- ASU 2016-02 – *Leases (Topic 842)*. Effective for fiscal years beginning after December 15, 2021.
- ASU 2020-07 – *Not-for-Profit Entities (Topic 958)*: Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets. Effective for fiscal years beginning after June 15, 2021.

ASU 2016-02 (*Topic 842*): The overall goal of this project is to ensure that all assets and liabilities arising from lease contracts are reported in the statement of financial position. Accordingly, the new guidance provides both lessee and lessor accounting requirements for all entities and it applies to all leases except leases of intangible and biological assets, inventory, assets under construction, and leases to explore or use mineral, natural gas and similar resources. The new update will require lessees to recognize the lease asset and lease liability associated with all leases (operating and financing), in the statement of financial position.

ASU 2020-07 (Topic 958): The amendments in this Update require that an not for profit entity present contributed nonfinancial assets as a separate line item in the statement of activities, apart from contributions of cash and other financial assets as well as additional disclosures regarding the disaggregation of the amount of contributed nonfinancial assets recognized within the statement of activities by category and qualitative information whether the contributed nonfinancial assets were either monetized or utilized during the reporting period. The entity also will need to disclose their policy about monetizing rather than utilizing contributed nonfinancial assets.

Restriction on Use

This information is intended solely for the use of the governing board, management and others within the Center and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Altman, Rogers & Co.

Anchorage, Alaska
